best of the best

reddot winner 2022
innovative product

The Red Dot Design Award is one of the biggest design competitions in the world. In three disciplines, participants submit products, communication projects and brands as well as prototypes and concepts. The distinction "Red Dot" is an internationally recognised seal of excellent design.

„Our jury was especially impressed by the products that won a Red Dot: Best of the Best. This distinction is synonymous with ground-breaking design par excellence. Only a very small percentage of competition winners were awarded this special title, because a product needs to have a certain something in order to win this top award. The fact that you have received a distinction is proof that you have created brilliant design!“

Prof. Dr. Peter Zec, CEP Red Dot
